INTEGRATED SECURITY CORPORATION™

Infinity 2020

Next-Generation Perimeter & Asset Protection

Infinity 2020 is a robust perimeter intrusion detection system designed to secure assets of all sizes with unmatched accuracy and reliability.

Using a combination of highly sensitive sensors, the most up-to-date processor electronics and real-time environmental data, Infinity 2020 maximizes probability of detection while offering the industry's lowest false alarm rates.
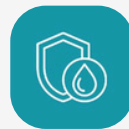

Key Features & Benefits

Weatherproof & Durable
No electronics on the fence — engineered for all conditions with minimal maintenance

Lowest False Alarm Rate
Weather station and adjustable sensitivity decrease false alarms.
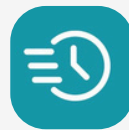

Three Year Warranty
Provides peace of mind for worry-free operation.

Adaptable & Versatile
Sensors mount easily to almost any surface — from chain-link fencing and razor ribbon to concrete walls.

**Simple, Economical Repairs**
Damaged cable? Splice and replace fast — reduce downtime, third-party reliance, and total cost of ownership

Industries Served

- Utilities, Energy, Nuclear
- Construction & Equipment Yards
- Transportation & Rail
- Critical Infrastructure

- Military & Government Facilities
- Warehousing & Logistics
- Residential & Commercial Estates
- State & Federal Prisons
